LITRES OF WATER FILTERED,
OR THE EQUIVALENT OF
27 OLYMPIC SWIMMING POOLS

18,426
PLASTIC ITEMS CAPTURED,
OR **198 PLASTIC ITEMS PER DAY⁷**

¹Total filtered water calculated using the recorded runtime percentage of each unit.

²Estimated total capture of marine litter calculated using the daily average data derived from site specific data.

³Estimates for plastic items captured are extrapolated using information from site specific data collections.

⁴Estimates for microplastic items captured are extrapolated using information from site specific data collections.

⁵Seabin event attendees during the dates represented in the reporting period.

⁶Seabin social media reach and impressions during the dates represented in the reporting period.

⁷Plastic items captured per day is a sum of unit averages, subject to site specific information such as unit run times and captured plastics.
