

## Magnetic Island Ferry Fare Update

### Fare Increase effective from Sunday 1 February 2026

Dear Residents and Regular Travellers between Townsville and Magnetic Island,

As of 1 February 2026, there will be an increase in ferry fares between Townsville and Magnetic Island. This increase is necessary to offset a portion of our escalating operational costs, and to ensure we continue delivering safe, reliable, and high-quality ferry services.

Key drivers of these cost increase include labour, maintenance, ongoing capital investment back into our fleet, and essential infrastructure. Our fares continue to offer flexibility to travel on any service with no fare changes during peak periods.

The table below provides a breakdown of the fare increases. For the convenience of our regular patrons, we continue to offer a variety of cost-effective options, such as flexi tickets (10 trips) and unlimited travel on our weekly, monthly, and 6-monthly tickets, tailored to frequent travellers' needs.

We remain committed to maintaining our current operating schedule, providing up to 17 daily services between Townsville and Magnetic Island, along with our ongoing commitment to community support, sponsorship, and investment.

The new fares will take effect from **Sunday 1 February 2026**.
