

Magnetic Island Ferry Fare Update

Fare Increase effective from Saturday 1 February 2025

Dear Residents and Regular Travellers between Townsville and Magnetic Island,

As of 1 February 2025, there will be a small increase in ferry fares between Townsville and Magnetic Island. This modest adjustment is in response to the escalating operational expenses our business faces, including labour, fuel, insurance and lease costs, among various other overheads. **Our fares continue to offer flexibility to travel on any service and we do not increase fares during peak periods.** The increase is essential to ensure continued investment in our transportation services and the supporting infrastructure within the region.

The table below provides a breakdown of the fare increases. For the convenience of our regular patrons, we continue to offer a variety of cost-effective options, such as unlimited travel on weekly, monthly, and 6-monthly tickets, tailored to frequent travellers' needs.

We are committed to maintaining our current schedule, offering up to 17 daily services between Townsville and Magnetic Island. The online adult return tickets move to \$39.50 and remain \$2.50 cheaper than standard adult return fare and is now only available on the SeaLink "Go Blue" Commuter App.

These new fares will take effect from **Saturday 1 February 2025**.
